Dear Sir or Madam,

Ferenc Szalay
Mayor

Szolnok is one of the most dynamically developing county seats of Hungary. With a significant renewal in the past fifteen years, Szolnok's economy is on an ascending trajectory, the city is a sports stronghold of Hungary, and a significant cultural and transport centre. Our guests are welcome throughout the year in the RepTár Military Aviation Museum, the Sörárium Interactive Beer Museum, and at many quality events and sights. The numerous developments ahead of us will fundamentally define the city's image and enhance the tourist services offered.

We have created a compass that is a precise guide to anyone who would like to spend a shorter or longer time in our city. The publication in your hands provides information and useful advice, and shows all the beauties of our city that we, the people of Szolnok, are all proud of. I wish you a pleasant stay in our city! I hope that you will find events to your taste, and let us meet again as soon as possible in the capital of the River Tisza.

The only song of the mayfly

Járd a táncot, szédült kedves!
 Víz tükrén forogj, lebegj!
 Szívd az élet mámorával
 tele szíved, és rebej
 hálaimát életedért,
 ezért a kis semmiért.
 Egy jó tanács: „Élj a mának!” -
 majd megérted, hogy miért.
 Gyorsan, gyorsan! Fel a napba,
 ameddig még van idő!
 Hisz' neked csak jelened van,
 nem talál itt a jövő.
 Csak pár óra, csak egy hullám,
 Csak egy nagy csodálkozás
 - szólhál, de a táncnak vége-,
 csak forgás... csak zuhanás...

[sanzsan

The swarming of mayflies is a mystery, an excitement, an indescribable magic. This rare, once-in-a-year phenomenon lasts for only one or two weeks, the insects from the underwater larvae of mayflies perform their spectacular nuptial dance above the water, just to die within a few hours. It is magic, a unique European experience on the River Tisza. In Szolnok, the nuptial dance of mayflies can be enjoyed on the River Tisza from the middle until the end of June.

Szolnok is an interconnection point. The River Tisza has been used for traffic for centuries. Its

Class III waterway allows the traffic of ships of 650-1000 tons.

The main access roads to the city are highway E60, which crosses the country from west to east, motorway M4, as well as the northern-southern and western-eastern national and international railway lines connected to one of the biggest passenger and freight stations of Central Europe.

One of the country's most important railway lines, Záhony-Budapest, also crosses the city.

A significant industrial railway system was built in the city, connecting the freight station with the companies on the southern industrial sites and the territory of the Industrial park.

A 200-hectare airport for sport aircrafts can host small aeroplanes.

szolnok

In order for us to feel at home in our city, and beside the recreational and leisure opportunities, it is a priority for Szolnok for its people to live in safety and harmony. When thinking about our children, our elderly and each other, we have worked under the aegis of mutual acceptance and by paying attention to one another. We provide special care for the elderly, continuously supporting their groups, leisure activities, and we put emphasis on regular contact with them and the utilization of their values and knowledge for future generations.

The birth of every child is a great joy and a gift, so respect the mothers! We take care of our young ladies, so we can greet them as mothers as well. Szolnok is helping pregnant women and mothers to carry their beloved babies before and after the birth. We give them reduced-price travel passes. The city greets the newborn babies of Szolnok with presents, and we provide vaccination against rotavirus for the protection of babies.

By thinking this concept further, we found ourselves on the road along which we will make the development of our children easier, let their childhood to be as full as possible, take care of the children and each other, and keep our environment clean.

We started developments not only to make the city's image nicer, but we also built safe and modern playgrounds in several points of the city, we provided health screening services, increased the number of civilian patrols, public area supervisors and, together with the police, we have reformed the crime prevention activities and placed surveillance cameras at different points of the city.

And once again, the focus is on our kids! Beside proper entertainment possibilities and healthcare, Szolnok is focusing more and more on the development of education and educational facilities. There are permanent constructions, programmes and developments being implemented to create modern conditions for education. The university campus created for adult learners is a unitary whole that we can build on. And we do, since Szolnok is being built!

Those coming to settle in the city meet an appropriate social care system, job-creation programmes and efficiently cleaned streets and spaces for our well-being. Our developments strengthen the sense of identity and help social integrity. Living in Szolnok is good!

Szolnok's current cityscape is a traditional, European cityscape. On the way towards the downtown, we are touched by the memories of the past, count Zounok proudly looks down from his statue on the city bearing his name, the Neo-Baroque Tisza Hotel decorated with Hungarian and Turkish architectural elements, and the Szigligeti Theatre near the hotel. Time has left expressive and beautiful buildings behind, like the eclectic City Hall or the County Hall. At the main square the spectacular futuristic fountain with its modern beauty fascinates people at almost any time of the year with its unique bronze statues seeming almost alive, and there is a special stage that is part of the square and hosts many open-air cultural events.

After leaving behind the buzzing square, and crossing the bridge over the River Zagyva that flows into the River Tisza, we arrive to a unique district from the point of view of sights.

The Damjanich monument made from Carrara marble reminds us of the merits of our ancestors.

Next to it, we find the Artists' Colony, which is the country's oldest, continuously operating art colonies.

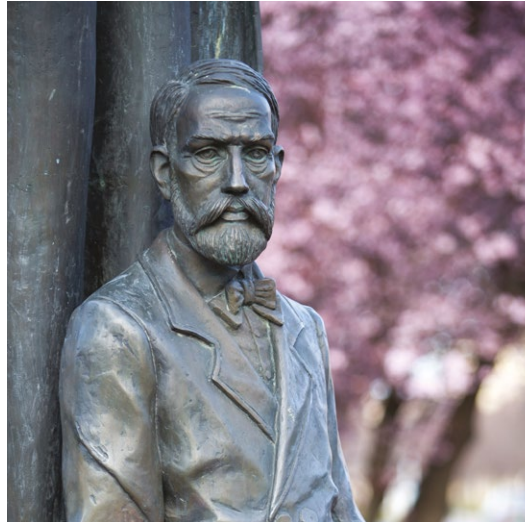

Not far from the Artists' Colony, we find a work commemorating the revolution of 1956, the Castle Church and the statue of Saint Stephen standing in front of it. Behind the Church, we see the Millennium Memorial Park with the shape of the Carpathian Basin.

culture

"For theatre one needs three boards,
two actors and one passion."

emphasis

There is a great emphasis on presenting and recommending entertainment and recreational possibilities within and separate from different events.

We are very proud of the afore-mentioned Artists' Colony, where internationally known artists like Vilmos Aba-Novák, Ferenc Chiovini, Tibor Pólya or Adolf Fényes have worked in the past. One should not miss the Colony's magic garden on the shore of the River Zagyva, as well as the artists' overwhelming, sometimes shocking, delighting or liberating works and exhibitions.

Visit the Damjanich János Museum and the Szolnok Gallery on the shore of the River Tisza, too.

But, do not stop here! Another shining star of Szolnok, the Szigligeti Theatre, has been mentioned so far only in terms of its exterior. The treasures of Szolnok's cultural life are not only the artists of the Colony and the theatre.

There are excellent musicians and choirs in Szolnok's musical life like the Szolnok Symphony Orchestra, the Liszt Ferenc Chamber Orchestra, the Bartók Béla Chamber Choir, the Kodály Choir and many orchestras and bands. Parallel to music, the Tisza Dance Ensemble has performed in Europe and in the Far East, in Hungary and at international festivals.

cultural life

Damjanich János Museum

Founded in 1933, the museum was transferred to the classicist building on Kossuth Square in 1952. It hosts the county's complete archaeological collection, and the largest fine art ethnographic and historic collection. The building hosts several permanent and temporary exhibitions. During summer, the cosy courtyard is the location of open-air cultural programmes. In the past more than 10 years, the museum has been trying to satisfy the demands of the public with "visitor-friendly" programmes and museum education, by involving its visitors into the hidden secrets of museum activities. In 2005, the Damjanich János Museum has won the "Museum of the Year" award for the second time as a recognition of its outstanding professional and exhibition activity.

The city's former synagogue was built by Lipót Baumhorn in eclectic style in 1898. The synagogue, rebuilt in the 1960s, started its operation under the name Szolnok Gallery with an exclusively cultural-artistic profile. During its more than 50-year operation, the gallery hosted mainly art exhibitions, but it is also a great location for historical, ethnographical and archaeological exhibitions, and other museum and literary events, concerts and conferences.

Rózsakert - Rose Garden

In one corner of the Verseghy Park, behind the County Hall, we find the Rose Garden with almost every rose species native in Hungary. They are special, decorative species, existing mainly in collections only. The Rose Garden with its almost 300 species of roses is one of Szolnok's most beloved and most beautiful green areas, the stupefacent scent of the flowers in summer lures people, and in winter, people visit the place for the fresh air on the shore of the River Tisza. There is an artesian well forming a drop in middle of the garden, which was built in the memory of Dr. József Béres, the inventor of the Béres Drops. The other parts of the Verseghy Park are interesting as well, its flower beds, atmospheric fountains, and rows of chestnut and linden trees provide a pleasant environment.

international relations

Szolnok, a City with County Rights, has wide-spreading and well-functioning twin-city and international relationships since 1969.

Through these twin-city and international collaborations, several valuable and successful programmes were implemented between schools, cultural institutions, sports associations, churches, friends, non-governmental organizations etc., not to mention the personal friendships.

The local government pays special attention to the international companies settled in Szolnok, strengthening its position in the international bloodstream.

Szolnok has established high-standard relationships with ambassadors accredited to Hungary, diplomatic bodies and cultural institutions to contribute to the city's international reputation.
